EN

A - Clear ashes **B** - Vents closed **C** - Vents open

⚠ **WARNING: When using liquid starters always check ash catcher before lighting. Fluid can collect in the ash catcher and could ignite, resulting in a fire below the bowl. Remove any starting fluid from the ash catcher before lighting charcoal.**

FR

A - Evacuation des cendres **B -** Clapets fermés **C -** Clapets ouverts

⚠ **AVERTISSEMENT: Lorsque vous utilisez du liquide d'allumage, vérifiez toujours le cendrier avant d'allumer. Le liquide risque de s'écouler dans le cendrier et de s'y enflammer, provoquant ainsi un feu sous le foyer. Retirez tout fluide de démarrage de l'attrape-cendres avant d'allumer le charbon de bois.**

DE

A - Asche entfernen **B** - Belüftungsöffnungen geschlossen **C** - Belüftungsöffnungen offen

⚠ **WARNHINWEIS: Bei Verwendung von flüssigen Grillanzündern muß vor dem Anzünden stets der Aschenauffang geprüft werden. Selbst eine geringe Ansammlung von Zündflüssigkeit im Aschenauffang könnte sich entzünden und ein Feuer unter der Grillkugel verursachen. Achten Sie darauf, dass sich vor dem Anzünden der Holzkohle keine Brennflüssigkeit in der Ascheauffangschale befindet.**
