AMR

R25

EVOLVED FROM NOSE TO TAIL

With solid roots in British racing history, the Aston Martin Aramco Formula One™ team carries a legacy of elegance, performance and pushing limits on the track. Going into the 2025 Formula One™ season, they fine-tuned almost every aspect of their car design. Sculpted for precision, the AMR25 redefines

aerodynamic efficiency with a bold new body and reprofiled sidepods. Its push-rod suspension enhances control and helps streamline air movement, along with evolved wings that boost balance and optimise grip. Features that have proven to be especially strong on high-downforce circuits.

BUILT FOR THE GREEN TEAM

For this model, we wanted to represent the striking livery, functions and the spirit of the AMR25. In LEGO® Technic terms, that means you get steering and authentic push-rod suspension in both front and back. A drivetrain with functional differential and a two-speed gearbox leads to a V6 engine and a simulated electric motor.

The gearbox is linked to the back wing, and the high gear engages the DRS. What more do you need for a race weekend?

- The LEGO® Technic Design Team
