

## SmallRig MagSafe / Cold Shoe Universal 2-in-1 SSD Holder 4779

## Packing list

- PSSD Clamp x 1
- Metal Ring Sticker x 1
- Operation Guide x 1

**Feature 1: The clamp features a slide-in cold shoe mount that can be quickly installed at the base of the clamp, allowing attachment to various devices. Remove the cold shoe mount for MagSafe magnetic attachment at desired locations, such as laptops or iPhones with MagSafe. Both installation methods are simple and swift, facilitating seamless transitions between usage scenarios. Besides, the clamp features silicone padding to prevent scratches on the SSD.**

**Scenario ①: Cold shoe attaches with CAGE**  
**(professional users)**

**Scenario ②: Magsafe attacheds with Metal Ring Sticker (laptop/pad consumer users)**

### Scenario ③: Magsafe attaches with mobile (mobile consumer users)

Connecting this product directly to the iPhone 15 without a MagSafe case may result in unstable attachment because the phone's magnetic attraction is limited. The phone's magnetic attraction is primarily designed for static charging. Our product needs to be used together with a MagSafe magnetic phone case for stronger magnetic force.

SmallRig's SSD holder will come with a magnetic phone case starting from iPhone 16.

## Features: compact and creative PSSD holder, compatible with most PSSD

(mainly compatible with: Samsung T7, Samsung T7 Shield, Samsung T9 and thickness between 8mm-16mm, no limitation to pssd width)

T7

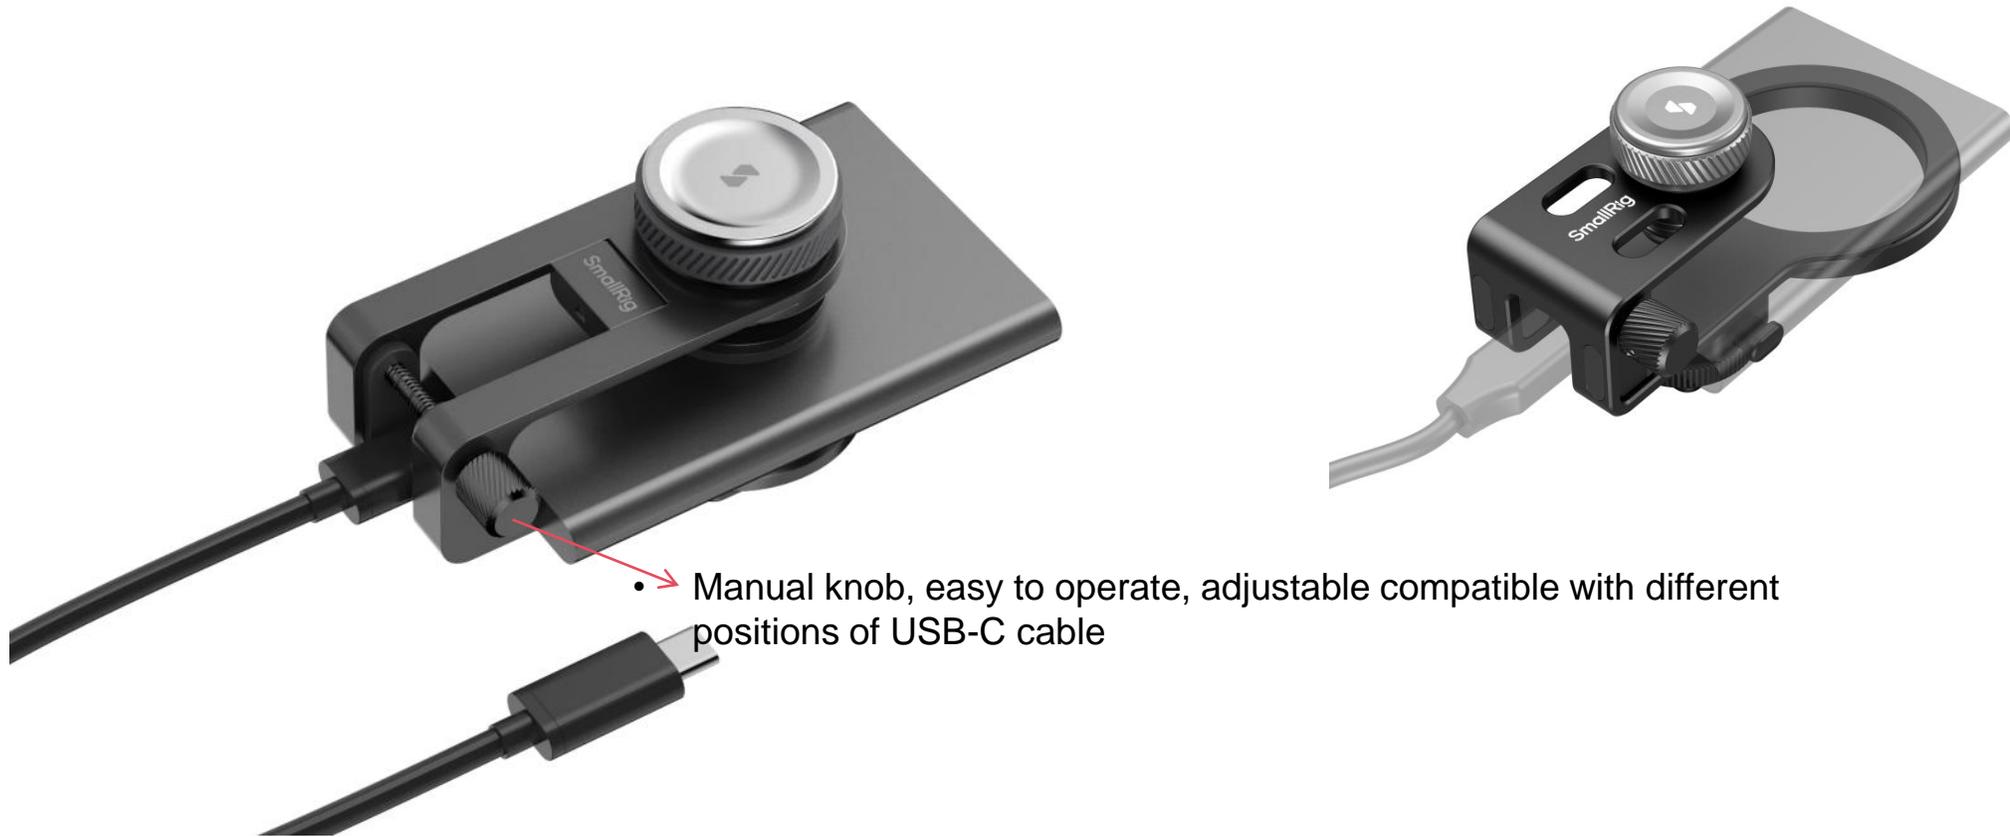

T7  
Shield

T9

### Feature 3: with USB-C clamp, protect the stability of transmission

**Feature 4: Includes a MagSafe magnetic ring for convenient attachment to laptops or phone cases without MagSafe functionality**

- The back of the magnetic ring(Metal Ring Sticker) is equipped with removable adhesive, which has strong stickiness and is not easy to fall off. It can be removed without leaving adhesive residue."
