A FIVE-YEAR MISSION TURNS 60

■ What started as a five-year mission to explore strange new worlds has expanded into a universe of its own. For fans who know every stardate and captain's log by heart, the original *Star Trek* series (1966-1969) is where it all began. The series created a world view with hope for a better future, where humanity chooses to be guided by curiosity, tolerance, integrity and compassion. On the iconic bridge of the *U.S.S. Enterprise NCC-1701™*, strategies are tested on risky missions, even in a hostile mirror universe, or where the captain bluffs an enemy with 'destructive corbomite'. Patience is strained during a chaotic outbreak, and standoffs with adversary species, and authority and loyalty are challenged when the crew must deal with a planet-destroying weapon. Six decades on, the series' characters, themes and bold imagination still inspire us.

STAR TREK™ 60

STARFLEET OFFICERS ON THE BRIDGE

■ The bridge is the heart of the *U.S.S. Enterprise* NCC-1701™ on its explorative mission – along with its crew, of course. As strong personalities with creative expertise in their respective fields, they represent Starfleet's finest qualities. Each is indispensable, and they depend on mutual trust, loyalty and respect. With a healthy combination of resolve, logic and humour, they constantly challenge perceptions and defy any odds.

"Space: the final frontier."

Captain James T. Kirk

"Fascinating."

Science Officer Spock

"What am I, a doctor or a moon shuttle conductor?"

Dr. Leonard McCoy

"I think I'm going to get space sick."

Navigator Ensign Pavel Chekov

"Hailing frequencies open."

Communications Officer Lt. Nyota Uhura

*"May the great bird of the Galaxy
bless your planet."*

Helmsman Lt. Hikaru Sulu

"I can't change the laws of physics."

Lt. Cmdr. Montgomery Scott

*"Your self-pity is a terrible first course.
Why don't you try the soup instead?"*

Nurse Christine Chapel

FROM THE LEGO® ICONS DESIGN TEAM

■ It's hard to overstate the legacy of *Star Trek* as a TV and cultural phenomenon, and we're excited to celebrate its 60th anniversary. For the first time ever, you can build and explore the original *U.S.S. Enterprise* NCC-1701™ bridge and its crew in LEGO® form. Throughout the design process, we rewatched the series and worked closely with our partners at Paramount Studios to add some awesome details. Along with the main bridge, we've included a viewscreen you can place wherever you prefer and a doorway that doubles as a turbolift. The transporter room, which can be set up in three different ways, was a bit tricky to recreate. We've designed it so two characters at a time can beam out to join their landing parties. Spock's hair/ears element is a new two-part design, the phaser element is completely new, and the bold '60s colours complete the authentic, iconic *Star Trek* vibe.

"Set your phasers to build and enjoy your
LEGO® Star Trek™ journey."
-The LEGO Icons Design Team

Scotty is alone in the transporter room with a canister of the ship's dilithium crystals.
(Full disclosure: this version will neither deteriorate nor make your bridge launch into warp speed.)

Richelieu, beware! A fencing foil in the hands of Sulu brings a bit of 18th-century swashbuckling action to the 23rd century.

The main panels are angled towards the centre and built sideways, so window elements can work as viewscreens.
