

AMPLIFI[™] INSTANT

Home Wi-Fi Mesh System

REVIEWER'S GUIDE

ABOUT US

Ubiquiti Networks, INC. (UBNT) is a networking technology company founded on a successful, disruptive business model. Having sold over 60 million devices worldwide to customers in over 180 countries and territories, UBNT is a global powerhouse in networking equipment with a focus on under-served and emerging markets.

Ubiquiti's transformative approach provides wireless data communication equipment for communities and consumers through industry-leading platforms airMAX, UniFi, airFiber, UniFi Video, EdgeMAX and its consumer brand, AmpliFi.

Combining innovative technology, disruptive price-to-performance and the support of a global user community, Ubiquiti Networks is on a mission to eliminate barriers to connectivity across the world.

AMPLIFI™

AmpliFi is the consumer brand of Ubiquiti Networks, a global leader in high-grade networking equipment. AmpliFi's mission is to keep customers connected and stay connected by improving modern home network coverage and performance.

As consumers increasingly depend on their home Wi-Fi for streaming, downloading and Wi-Fi use, AmpliFi gives consumers the best options in whole-home Wi-Fi.

The AmpliFi Instant Mesh Wi-Fi System

Whole-Home Wi-Fi in under 2 minutes.

Faster and better Wi-Fi coverage is only 2 minutes away with the AmpliFi Instant Mesh Wi-Fi system. It's the simple solution to getting better Wi-Fi connections to all your devices. From streaming to smart home devices across the home, you need a Wi-Fi system that can keep up with you. The AmpliFi Instant gives you the most bang for your buck with fast, long-range coverage in as quickly as 2 minutes.

The AmpliFi Instant Router features 802.11 ac Wi-Fi technology, Gigabit Ethernet ports on both the router and the mesh point, and a WAN port.

The AmpliFi Instant Router

AmpliFi Instant is made by Wi-Fi experts, designed for homeowners and is an accessible mesh Wi-Fi system that anyone can use.

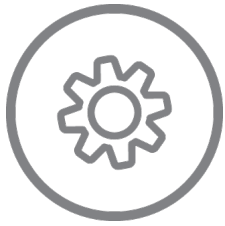

The AmpliFi Instant Mesh Point

You need simple, hassle-free Wi-Fi.

Wi-Fi doesn't have to be a complicated. With the AmpliFi Instant Mesh Wi-Fi system, you can have fast and reliable Wi-Fi in 2 minutes. Bring the power of mesh technology to your home with a simple setup and Wi-Fi capacity to handle all your connected devices.

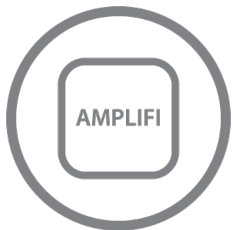

Get the features you actually want from a system you can understand.

The AmpliFi Instant has the features you want, like device status and guest access, with an interface that doesn't require a PhD in technology. It's glowing LED light indicates the system status while the AmpliFi App is clear and easy to understand.

Say hello to a fresh design aesthetic.

And goodbye to trying to discreetly hide your router. You need your router where you use your devices the most; like your office, family room or bedroom.. The AmpliFi Instant is designed to complement your home's interior both functionally and aesthetically. Now you can place your router on your desk, side table or nightstand without messing up your home's feng shui.

There's an App for that...and it's really easy to use.

The AmpliFi app allows you to configure and check on your network from home or remotely. Manage devices by pausing or scheduling internet use and control who uses your Wi-Fi with guest access features. It's a simple, yet powerful tool to control your internet.

We want to give you Wi-Fi that meets your needs.

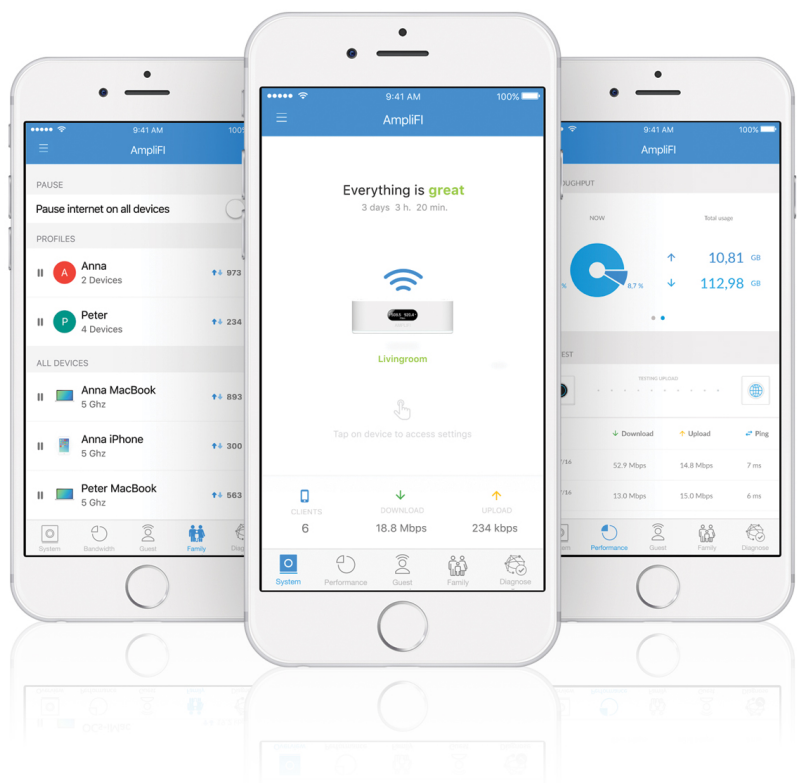

Mix and match your mesh technology to strengthen Wi-Fi signals to the areas of your home you need it the most. In addition to the AmpliFi Instant kit, which features an Instant mesh point, you can add AmpliFi HD mesh points or AmpliFi HD routers to ensure complete coverage.

CONTROL YOUR WI-FI

Check your network status, grant guest access, test your connection and see what devices are using your Wi-Fi all from the App.

APP FEATURES

- Powerful reporting metrics
 - Parental controls
 - Remote capabilities
 - Guest access

The AmpliFi Instant Mesh Wi-Fi System

Product Specifications

Max. TX Power	22 dBm
MIMO	2.4 GHz: 2x2, 5 GHz: 2x2
Speeds	2.4 GHz: 300 Mbps, 5 GHz: 867 Mbps
Networking Interface	Wi-Fi/Gigabit Ethernet (1) WAN, (1) LAN
Max. Power Consumption	9W
ESD/EMP Protection	± 24kV Air/Contact
Buttons	Reset
Antennas	(1) Dual-Band Antenna, Single-Polarity
Display	30.73 mm (1.21") Diagonal, 160 x 64, 142 ppi, Capacitive Touch, Grayscale
Wi-Fi Standard	802.11ac
Power Save	Supported
Wireless Security	WPA2-PSK AES/TKIP
Operating Temperature	14 to 131° F (-10 to 55° C)
Operating Humidity	5 to 95% Noncondensing
Certifications	FCC / CE / IC

Supported Data Rates

802.11ac	13 Mbps to 866.7 Mbps (MCS0 - MCS9, VHT 20/40/80)
802.11n	6.5 Mbps to 300 Mbps (MCS0 - MCS15, HT 20/40)
802.11a	6, 9, 12, 18, 24, 36, 48, 54 Mbps
802.11b	1, 2, 5.5, 11 Mbps
802.11g	6, 9, 12, 18, 24, 36, 48, 54 Mbps

GETTING STARTED

The AmpliFi app guides you through the setup process for quick and seamless configuration.

1. Connect AmpliFi to your modem via an Ethernet cable.
2. Download the AmpliFi app and follow the in-app instructions.

*You can also scan the QR code found on the cards found in the packaging for the Quick Start Guide.
