Light Behavior:**Light indicator****Description****Representation****Green**

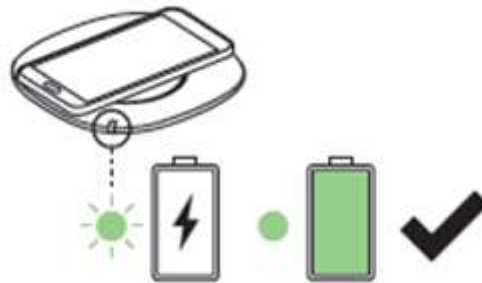

Qi device is detected.

- **Solid** – charging complete

NOTE: Your device must support a full battery communication to the base station for the light to turn solid.

Otherwise, check the **Full battery** indicator on your smart device.

- **Blinking** – currently charging

**Orange**

Input Power Supply or the USB cable is not good enough to supply power. Please use better power supply and cable.

**Red**

Pad has detected a non-Qi device and will not charge or Qi device is misaligned.
